## Student

[GitHub](#)  
[LinkedIn](#)

Aspiring software developer with a strong foundation in full stack development and programming languages including Java, JavaScript, and C. Skilled in developing web applications using modern JavaScript frameworks such as ReactJS and Node.js. I am currently pursuing a Bachelor of Science in Information Technology with a proven track record of academic excellence and hands-on project experience. I am passionate about contributing to innovative projects and enhancing my skills in a dynamic team environment.

## SKILLS

Library & Framework	React Js , Node Js , Express Js
Tools & Platforms	HTML , CSS , Bootstrap , Material UI , Git , GitHub , Postman , Linux , Windows
Programming Language	Java , JavaScript , C
Database	MongoDB

## PROJECTS

### Circle

Currently Working

- Developing a full-stack MERN application similar to Google Classroom. This platform allows users to create and manage digital classrooms.
- Teacher Functions : Teachers can assign and review assignments, share information, and manage classroom activities.
- Student Functions: Students can submit assignments, view scores, and raise questions within the classroom.
- Admin Functions: Admins oversee all classroom activities and manage users.

### QuizArena

May 2024

- Developed an exam platform [QuizArena](#) website using **ReactJs** and **JavaScript**.
- Significantly optimized the user experience with seamless deployment on Vercel.
- SignUp and LogIn validation : The user cannot access the quiz without signing up first. Log-in credentials are required.
- The exam includes various types of questions , covering data structures , algorithms and technical concepts.

### Currency Converter

December 2023

- Created a [Currency Converter](#) web application using **JavaScript**.
- This is a simple currency converter web application created using HTML, CSS, and JavaScript.
- It allows users to convert between different currencies, providing almost real-time exchange rates.

### Interview Management

Feb 2024

- Successfully programmed an **Interview Management System** using the **C** language. It simplifies the interview process by filtering candidates as per the requirement.
